

Code	Description
FL	Foreign Listing (free) - Free foreign listings for subscribers within certain exchange border areas of the same local calling area. Available when a foreign listing is needed for better identification in order to facilitate the completion of calls.
FAC	Foreign Alternate Call - An Alternate Call Listing in a foreign directory.**
FCR	Foreign Cross Reference - A Cross Reference Listing in a foreign directory.**
FSPL	Foreign Special Listing - A Special Text Listing in a foreign directory.
SPL	Special Text Directory Listing - Listings with phrases providing narrative description and dialing information or instructions (i.e., directing incoming calls after hours and during specific time periods.) (SPL listings must always be indented.)

* See "Designer Listings" on the following page for additional information.

** Requires an entry in the foreign/secondary name field.

Note 1: One Listing Type code is used per listing.

Note 2: When a designer listing is used, other Listing Type codes such as LN, AL, AML, and AC are not used.

Note 3: DB, DBP, DS, DSP, DL, DLB, and DLS are ordered individually.

Note 4: FL, FAC, FSPL and FCR are ordered individually.

Designer Listings

Residential end users may order directory designer listings as shown below. **Designer listings are not available for business listings.** Designer listings can only be selected when this form is being used to submit a residential listing request.

Font Type	Example
BOLD - Name, Address & Telephone Number appear in bold type.	Johnson Anthony 437 Acres Dr.....555-0699
BOLD PLUS - Name, Address & Telephone Number appear in bold type plus ruled lines above and below the listing.	Johnson Anthony 437 Acres Dr.....555-0699
<i>Script</i> - Name, Address & Telephone Number appear in cursive (script) type.	<i>Johnston Belinda</i> <i>123 Affinity Dr.....555-3906</i>
<i>Script Plus</i> - Name, Address & Telephone Number appear in cursive (script) type plus ruled lines above and below the listing.	<i>Johnston Belinda</i> <i>123 Affinity Dr.....555-3906</i>
Extra Line - Allows information to help identify the end user listing or simply to express themselves in standard type.	Johnston Gary Freelance Photographer 4216 Marais.....555-6529
BOLD Extra Line - Allows information to help identify the end user listing or simply to express themselves in bold type.	Averson Jamie & Joan Square Dancers Owner of J & J Antiques 54 Oak Av.555-9974
<i>Script Extra Line</i> - Allows information to help identify the end user listing or simply to express themselves in cursive (script) type.	<i>Davis William M</i> <i>Owner of Davis Contractors</i> <i>399 Ivy Rd 30233.....555-1174</i>

Listed Name

This section is used to show the listing EXACTLY as the end user desires for it to appear in the directory. When changing an established listing, provide the complete listing to insure the listing will be changed according to the end user request.

Listed Name Instruction Codes:

ODE CLS)	ION Customer Lists	N it the listing from list product extraction. Format in front of listed name. Ex: (OCLS) Jones Mary
LA)	sting As	ition listings in the directory contrary to normal placement rules. Populate behind the listed name. (PLA) Nine Lives

Listed Address

Use this section to enter the listed address if the end user desires a listing different from that provided in the 'End User' section of this form

Listed Address Instruction Code:

ODE AD)	ION ss	N address field to omit addresses from the listing. Populate in lieu of listed address. Ex: (OAD)
------------	-----------	------------------------------------------------------------------------------------------------------------

Yellow Page Heading Code

Identifies the Yellow Page heading for the business listing. For business lines, one listing in the Yellow Pages is available at no charge for each end user account. The listing may be placed in the Yellow Pages under an approved heading that is appropriate for the business (i.e., Restaurants, Beauty Salons, etc.). Requests for business listings under more than one heading are considered directory advertising, and must be negotiated by the end user with a BellSouth Advertising and Publishing (BAPCO) Sales Representative. A Yellow Page Heading Code consists of seven (7) alphanumeric characters. A complete list of Yellow Page Heading Codes can be requested from BAPCO (see Directory Section of this guide).

SIC - Standard Industry Code

The SIC (Standard Industry Code) should be provided. A SIC code is a four (4) character numeric code. These codes are associated with specific Yellow Page Heading Codes and are provided by BAPCO.

A SIC manual is also published by the United States Office of Management and Budget and may be purchased through NTIS.

National Technical Information Service
5285 Port Royal Road
Springfield, Virginia 22161
703-487-4650

Foreign/Secondary Directory Name

The listing will be entered in the appropriate directory based on the main account telephone number. If the end user desires the listing to appear in additional directories (or a different directory), enter the community name for the directory. There is a charge for foreign listings.

The name of the directory should be shown preceded by (F) for Foreign or (S) for Secondary.

EXAMPLE: (F) Nashville, TN
(S) Franklin, TN

USOCS AND FIELD IDENTIFIERS (FIDS)

Description

This section contains specific Field Identifiers (FIDs) and information pertaining to Uniform Service Order Codes (USOCs) which may be needed when adding features on the Resale Service or Port Service forms.

Field Identifiers (FID)

FIDs are descriptive codes used to specify instructions or to identify data entries.

FIDs are formatted in the "FEATURE" or "FEATURE DETAIL" field on the Resale Service form and the Port Service form.

Only unique FIDs associated with specific products are provided.

Uniform Service Order Code (USOC)

USOCs are a combination of three or five alphanumeric characters used on service orders and equipment records to identify items of service and equipment within the BellSouth region.

Basic Class of Service USOCs and Product USOCs are shown in the "Feature" field and the Resale Service and the Port Service forms.

Most USOCs can be found in the tariffs. However, Basic Class of Service USOCs are not. This information is being added to the same Web site housing this document:

www.bellsouth.com/interconnection/local/local_index.html.

The USOCs specific to Unbundled Ports are listed below and currently are not found on the Internet.

Classes of Service

UEPRX	Residence Port
UEPBX	Business Port
UEPPX	2 wire PBX Port (Trunk Port with Line Termination)
UEPPX	2 wire Trunk Port DID

Line Assignable USOCs (All Port USOCs are measured services unless otherwise specified. All ULS Port Line Assignable USOCs include Touch-tone and are valid throughout the BellSouth Region.)

UEPRL	Unbundled Residence Line
UEPBL	Unbundled Business Line
UEPP2	Unbundled DID Port (non-measured)
UEPPO	Unbundled PBX Trunk Port (outward only)
UEPPC	Unbundled PBS Trunk Port (2 way)

COMPLETE CHOICESM - FID Definitions

Call Forward Number - Busy Line	CFNB	Indicates the telephone number to which calls are forwarded when the called number is busy. Example: Feature: GCE Feature Detail: CFNB 205-555-1212 Note: CFNB used in DMS100, DCO, 5ESS, & 1AESS switches.
Call Forward Number - Don't Answer	CFND	Indicates the telephone number or station to which calls are forwarded when the called number doesn't answer. Example: Feature: GCJ Feature Detail: CFND 555-1234
Ringling Cycle	RCYC	Identifies the number of rings the customer requests for the Call Forwarding Don't Answer feature. Example: Feature: GCJ Feature Detail: RCYC 4
Number of Calls Forwarded	NCF	Indicates the number of calling paths. Example: Feature: ESM Feature Detail: NCF 14

COMPLETE CHOICESM - FID Definitions

Prefix - Call Forwarding	PFX	<p>Indicates whether the switch is to append a prefix digit to the Call Forwarding number when the customer is in a 1AESS switch.</p> <p>Example: Feature: CFSBX Feature Detail: PFX BLPFX.Y or Feature: CFSDX Feature Detail: PFX DAPFX.Y</p> <p>Options: BLPFX used with Call Forward Busy Line DAPFX used with Call Forward Don't Answer Y = Yes N = No</p> <p>Note: Used in 1AESS switch only.</p>
Call Rescue	ZCR	<p>Indicates whether a customer has the Flexible Call Forwarding feature Call Rescue.</p> <p>Example: Feature: FCS Feature Detail: ZCR N</p> <p>Options: Y = Yes N = No</p>

COMPLETE CHOICESM - FID Definitions

Call Rescue Type	ZCRT	<p>Indicates whether the type of Rescue is a directory number or voice mail service.</p> <p>Example: Feature: FCSCN Feature Detail: ZCRT DN</p> <p>Options: DN = Directory Number VMS = Voice Mail Service</p> <p>Note: When the FID ZCR with data of Y is used, the FID ZCRT is required with the same USOC. When the FID ZCR with data of N is used, the FID ZCRT is not allowed with the same USOC</p>
Call Rescue Number	ZCRN	<p>Indicates the Flexible Call Forwarding Call Rescue number when DN (Directory Number) is chosen for ZCRT.</p> <p>Example: Feature: FCSN Feature Detail: ZCRN 9015551212</p>
Call Rescue Pager	ZCRP	<p>Indicates whether the Call Rescue number is a pager.</p> <p>Example: Feature: FCSCN Feature Detail: ZCRP Y</p> <p>Options: Y = Yes N = No</p> <p>Note: When the FID ZCRN is used, ZCRP is required with the same USOC. When the FID ZCR with data of N is used, the FID ZCRP is not allowed with the same USOC.</p>

COMPLETE CHOICESM - FID Definitions

Voice Mail Access Number	ZVMA	<p>Indicates the number the customer dials to access voice mail service.</p> <p>Example: Feature: FCP Feature Detail: ZVMA 4045551212</p> <p>Note: When the FID ZCRT with data of VMS is used, the FID ZVMA must be used with the same USOC. When the FID ZCR with data of N is used, the FID ZVMA is not allowed with the same USOC.</p>
Voice Mailbox Number	ZVMN	<p>Indicates the customer's voice mailbox number.</p> <p>Example: Feature: ECS Feature Detail: ZVMN 4045555555</p> <p>Note: Required when the FID ZCRT with data of VMS is used. Also required when the FID ZCR with data of N is used.</p>

RESALE SERVICE (RS) FORM

Description

This section describes the Resale Service (RS) form entries. Each field on the RS form is identified and defined. The RS form must always be associated with the Local Service Request (LSR) and the End User Information (EU) forms.

The RS form contains hunting and service details necessary for the provisioning of this service. The Hunting Section provides Hunt Group Activity, Hunt Type and Hunt Sequence information. The Service Details Section provides Reference Numbers, Activity type information, Telephone, Terminal and Maintenance Number information, as well as numerous other data about service(s) involved in Resale activity.

These request forms were designed with the intent to require a minimum of input information. Remark fields provide space for clarification required for items not specifically covered by the request forms. Attachments may also be used to provide lengthy data requiring further specification (e.g., hunting patterns, restrictions, or other such details not easily described through a standard form entry).

This document incorporates the following BellSouth requirements for the population of form entries:

- Required means the field must be populated.
- Optional means the field may or may not be populated.
- Prohibited means the field must not be populated.
- Conditional means the field is dependent upon the relationship to another entry as specified in the usage statement and is dependent upon the presence, absence or combination of other data entries.

All local service ordering forms utilize the following general instructions for justification:

- Quantity fields are right justified.
- Fields with text are left justified.
- Fields not following these justification rules are so noted within the context of the definition and usage statement.
- If a field is designated as prohibited, it should be left blank.

Ordering Matrix

Generally, simple Resale services are ordered through the BellSouth Local Carrier Service Center (LCSC). However, many complex Resale services require technical direction and assistance from the Account Team. Based on the service, the following matrix indicates the proper department to receive the order request forms.

When ordering services through the Account Team, the CLEC should submit the Local Service Request (LSR), the End User Information Form (EU), and the Directory Listing Form (if applicable). Completion of the Resale form is not required.

When ordering services through the LCSC, the CLEC should submit the LSR, EU, Resale Form, and Directory Listing form (if applicable).

Administrative Section

1. PON - Purchase Order Number

Identifies the customer's unique purchase order or requisition number that authorizes the issuance of this request or supplement.

USAGE: This field is required.

DATA CHARACTERISTICS: 16 alphanumeric characters.

EXAMPLE:

8	2	4	Z	9											
---	---	---	---	---	--	--	--	--	--	--	--	--	--	--	--

2. VER - Version Identification

Identifies the customer's version number.

USAGE: This field is conditional.

Required when the VER field on the LSR form is populated, otherwise prohibited.

This entry must be identical to the VER field entry on the LSR form.

DATA CHARACTERISTICS: 2 numeric characters.

EXAMPLE:

0	1
---	---

3. AN - Account Number

Identifies the main account number assigned by the NSP. If a number is used, it may or may not be the same as the working telephone number.

USAGE: This field is conditional.

Required when the ATN field is not populated.
Otherwise optional.

DATA CHARACTERISTICS: 20 alphanumeric characters.

EXAMPLE:

N																			
---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

4. ATN - Account Telephone Number

Identifies the account telephone number assigned by the NSP.

If the number is used, it may or may not be the same as the working telephone number.

The LOCBAN field information used in the previous form version should be used here.

USAGE: This field is conditional.

Required when the AN field is not populated.

Otherwise optional.

DATA CHARACTERISTICS: 12 alphanumeric characters (including 2 preprinted hyphens).

EXAMPLE:

2	0	1	-	5	5	5	-	1	2	1	2
---	---	---	---	---	---	---	---	---	---	---	---

5. RSQTY - Resale Quantity

Identifies the quantity of Resale Services (e.g., lines, circuits, trunks, etc.) involved in this service request.

USAGE: This field is required.

DATA CHARACTERISTICS: 3 numeric characters.

EXAMPLE:

		8
--	--	---

6. ORD - Order Number

Identifies the provider's order number for the service requested.

This number may be pre-assigned to the customer by the provider.

USAGE: This field is optional.

DATA CHARACTERISTICS: 20 alphanumeric characters.

EXAMPLE:

C	2	3	4	5	6														
---	---	---	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--
